WORK EXPERIENCE

Full-Stack Developer | Capps (Contract, Part-Time) | Remote | 2024 - Present

- Building full-stack applications tailored to specific needs and aligned with business logic.
- Integrated server-side rendering with Next.js for improved SEO and performance .
- Support and assistance to colleagues in solving problems.
- Acceleration and optimization of existing projects.
- Discussion, planning and further implementation of features
- Collaborated closely with the team to deliver new features on schedule
- Support and development of projects with monolithic architecture
- Support multiple projects simultaneously

Full-Stack Developer | Freelance | Remote | 2022 - 2024

- Building the frontend and fullstack apps with Next.js/React/Redux toolkit and Mongo db
- creating components and simple applications with React Native based on Expo
- Built the logic for e-commerce projects.
- Maintenance and revision of existing projects
- implementation of design solutions of varying complexity
- connection of payment systems (PayPal, Stripe)
- implementation of registration, authentication (custom with JWT or via auth.js, nextAuth.js (Providers) OAuth and else.
- Managed data storage and retrieval through PostgreSQL and MongoDB, optimizing database queries for efficiency. and integrations with storages like AWS S3, Google Cloud, Cloudinary, etc.

Frontend Developer | Webstudio "Web Scout" | Remote | 2020 - 2022

- Creating HTML/CSS layouts from Figma
- Built the frontend solution on React/Redux
- Built pixel-perfect UI from Figma using React, SCSS, and Styled-components
- Integrated interactive features like modals, Kanban boards, and sliders (Swiper)
- Implemented advanced form validation using custom logic and Yup/Zod

EDUCATION

Bachelor of Computer Engineering, Open National University, "Ukraine"

PROJECT HIGHLIGHTS

- E-Commerce Platform with Next.js & Stripe: Built a full-featured store with SSR, secure authentication, and payment integration
- Admin Dashboard: Designed and developed an internal admin tool for managing users and content using React, Redux, and MongoDb, Prisma/PostgreSQL
- UI Component Library: Created a reusable design system using Shadcn/UI and Tailwind CSS, improving development speed across projects

TECHNICAL SKILLS

- **Frontend:** React, Next.js, React Native (Expo), TypeScript, JavaScript, Redux Toolkit, Tailwind CSS, SCSS, MUI, Styled-components, Shadcn/UI, Framer Motion, GSAP
- **Backend:** Node.js, Express.js, REST API, MongoDB, PostgreSQL, Prisma, JWT, OAuth, Auth.js, NextAuth.js
- **Dev Tools:** Git, GitHub, Postman, Docker, Figma, AWS S3, Google Cloud, Cloudinary, Stripe API, PayPal API
- **CI/CD & Infrastructure**: (Learning in progress) Docker, GitHub Actionsy

LANGUAGES

Ukrainian - Native | Russian - Native | English - Intermediate (B1)

INTERESTS

- Ad Building personal projects with React & Next.js
- Tech blogging and open-source contributions
- Exploring UI/UX design & prototyping
- Studying backend infrastructure (Docker, CI/CD)
- Strength training, running, and immersive gaming (Souls-likes, MMOs, RDR2)
